

COREP FC2E14 E14 8W LED MAX.  
220-240V~50Hz

**POSSIBLE  
FINISHES:**

OW  
Off White

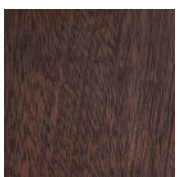

BRUN  
Brick

MIROIR  
Mirror polished steel

BRUT  
Brushed steel

Wood Frame  
Mahogany Veneered  
wood

**TECHNICAL  
SPECIFICATIONS:**

Materials:  
Lacquered steel and paper  
Magnetic paper diffusers included

Dimensions:

Height: 350 mm  
Width: 240 mm  
Depth: 49mm

Weight: 1 kg

**ELECTRICAL  
COMPONENTS:**

CE certified components

Socket: E14

Bulb: Provided bulb. Non dimmeable

LED: Power 12W

Voltage: 220-240 V

**LIGHTING  
SPECIFICATIONS:**

Lumens: 1350 lm

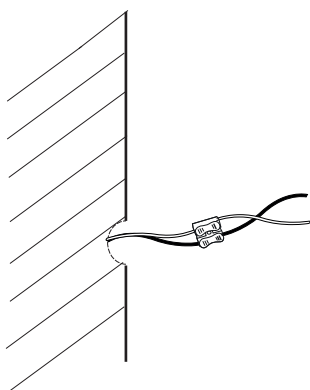

Temperature: 2700K

Rated life: 30.000 hours

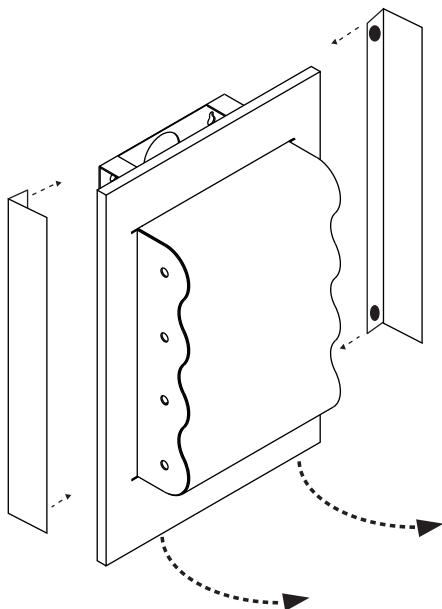

**MADE IN PORTUGAL**

**HARDWIRED VERSION:**

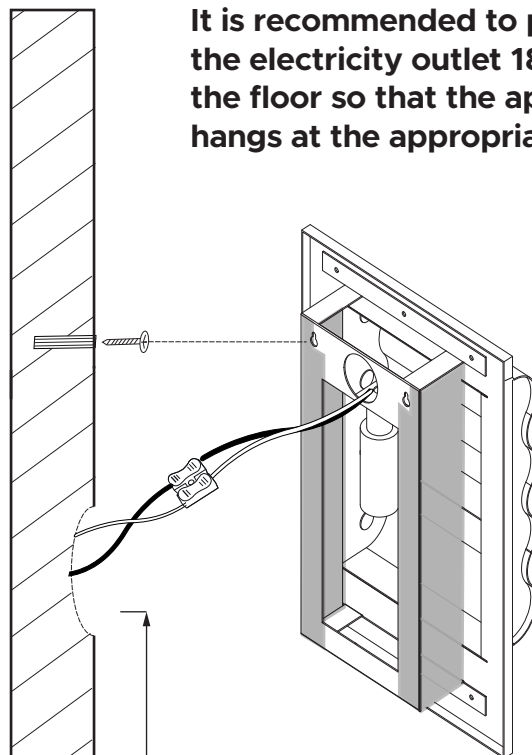

- 1 - Identify the electrical wires from your wall.
- 2 - Strip about 6 mm of insulation from the wire ends.
- 3 - Fix the screws placing these side by side with 11.2cm between them.
- 4 - Connect the 2 wall wires with 2 sounce wires, be careful to match colors properly.

- 5 - Hang the sounce from the screws.
- 6 - Lift the frame pulling from the bottom, bringing it off the wall. Place the paper diffusers behind the frame at both sides of the lamp.

**It is recommended to place the electricity outlet 185 cm from the floor so that the appliance hangs at the appropriate height.**

**Clean with a soft dry cotton cloth.**

**SAFETY TIPS:**

If unsure, consult a qualified electrician.

Avoid exposing connections to humidity.

Always double-check connections before restoring power.
